WAGE AND SALARY EARNERS IN CIVILIAN EMPLOYMENT

INDUSTRIAL GROUPS : PRIVATE AND GOVERNMENTAL

JANUARY, 1957 TO JUNE, 1960.

The figures appearing in these tables are estimates and are obtained from three main sources :-

- (a) Monthly data as to persons employed in factories as shown by the annual Census of Factories;
- (b) Current monthly returns from governmental authorities; and
- (c) Current monthly Pay-roll Tax returns, which at present are required to be lodged by all employers paying more than £200 a week in wages except certain Commonwealth Government bodies, religious and benevolent institutions, public hospitals and other similar organizations specifically exempted under the Pay-roll Tax Assessment Act, 1941-1957.

There are also some other direct records of monthly employment (e.g. for hospitals).

These are supplemented by estimates of the number of employees outside the scope of the Census of Factories, governmental authorities and Pay-roll Tax returns.

Monthly numbers of factory employees subsequent to June, 1959 are estimated and are subject to revision in accordance with the results of the Factory Census for 1959-60.

The monthly estimates of employment according to industry are compiled on an establishment or enterprise basis. In consequence, they do not agree with the relevant industry tabulations of the Population Census, which are based on personal information supplied by individual respondents in their census schedules.

The purpose of the estimates is to measure, as nearly as possible with the available data, current monthly trends in employment in defined fields.

The terms "Employment", "Employees", "Wage Earners" are synonymous with, and relate to "Wage and Salary Earners" on pay-rolls or "in employment" in the latter part of each month, as distinct from numbers of employees actually working on a specific date. They include persons employed part-time.

NOTES

- (a) The figures shown represent the actual monthly employment in factories as recorded at successive annual Censuses of Factories to June, 1959, with interim estimates for subsequent months. In this connexion a factory is defined as an industrial establishment in which four or more persons are employed or in which power, other than manual, is used. The employees covered by these figures are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc.
- (b) Includes employees in industrial establishments outside the scope of the definition of a factory, given in (a) above, as well as persons employed by factory proprietors but engaged in selling and distribution, etc., who are excluded from figures shown under "Factories".
- (c) Includes employees on repairs, demolition, renovations, maintenance, etc.
- (d) Includes employees of financial institutions such as banks, insurance companies, hire purchase, cash order and trustee companies, etc.
- (e) The figures shown for "Other Industries" comprise employment in the industries Law and Order; Religion and Social Welfare; Health; Education; Other Professional Services; Amusement, Sport and Recreation; and Personal Service, including Hotels, Restaurants, etc., but excluding females in private domestic service. In addition, female employees in Forestry, Fishing and Trapping, Mining and Quarrying have been included in "Other Industries".
- (f) The numbers appearing as "Government" wage and salary earners comprise all employees in Western Australia of government authorities, whether Commonwealth, State, Local Government or Semi-Government. They include not only those engaged in administrative activities but also employees on services such as railways, road transport, air transport, shipping, education, health, hospitals, migrant hostels, banks, post office, broadcasting, police, factories, electricity generation and supply, water conservation, road and bridge construction, harbour works and other public works.
